Objective

Aspiring Full Stack Developer skilled in the MERN stack and modern backend frameworks, dedicated in delivering efficient, secure, and scalable Software applications in a growth-oriented environment.

Education

Indian Institute of Technology , Bhilai

Bachelor of Technology in Electrical Engineering

CGPA - 9.18

Aug 2023 - present

Coursework

- Data Structures & Algorithms
- Computer Networks
- Object Oriented Programming
- Artificial Intelligence
- Database Management Systems
- Machine Learning

Experience

APTRANSCO

May 2026 – July 2026

AI—ML Intern

Vijayawada

- Built a multilingual RAG assistant using LangChain ,VectorDB ,Embeddings ,LLM & Semantic to enable intelligence.
- Integrated an MCP layer connecting the RAG, database assistant, and translation services.

Evoastra

Sep 2025 – Nov 2025

Data Science Intern

Remote

- Trained a Logistic Regression pipeline with ColumnTransformer on 7,000+ recorded data of 10 telecom services .
- Performed model evaluation using cross-validation, hyperparameter tuning to improve accuracy

Projects

Sahayatri | *React, Supabase, PostgreSQL, TypeScript, Playwright*

Github

- Built a travel marketplace with React and Supabase, isolating through PostgreSQL Row Level Security policies.
- Implemented real-time tourist-guide chat via Supabase Realtime, along with a full booking system, review system, buddy trip planning, and Google OAuth authentication.
- Achieved E2E test coverage with Vitest unit tests, and Playwright tests against a seeded database across 8 Indian cities.

DrOne | *Python, FastAPI, PostgreSQL, React, JavaScript*

Github

- Built a modular REST API with FastAPI covering patient management, appointments, real-time queue, medical records, and payments as dedicated router modules.
- Implemented JWT authentication and a raw-SQL PostgreSQL schema with role-based access control to secure patient and doctor records.
- Designed a patient queue management system & analytic module to surface operational metrics and reduce wait times.

PlantNetra | *React, Vite, Capacitor, PyTorch, ONNX*

Github

- Packaged a hybrid mobile + web app using React, Vite, and Capacitor targeting both iOS and Android platforms.
- Delivered real-time predictions across 22 disease classes for 5 crops with overview, causes & curing treatment .
- Designed a custom PlantDiseaseNet with Multi-Scale Atrous Convolution and Squeeze-and-Excitation attention, exported to ONNX for cross-platform inference.

Expense Tracker | *MongoDB, Express, React, Node.js, ExcelJS*

Github

- Built a MERN stack finance app with JWT authentication, per-user data isolation, and bcrypt password hashing.
- Implemented full CRUD for categorized transactions with a one-click Excel export using ExcelJS for offline analysis.
- Structured the Express backend across 4 dedicated route modules with Mongoose models and JWT middleware.

Technical Skills

Languages: Python, Java, C++, C

Frontend: React.js, JavaScript, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, FastAPI, REST APIs

Databases: MongoDB, MySQL, PostgreSQL

Cloud & DevOps: Git, GitHub, Docker, AWS, Supabase

Development Tools: VS Code, Postman, Linux, Anaconda, Jupyter Notebook

Soft Skills: Effective Communication, Problem Solving, Teamwork, Adaptability, Leadership

Leadership / Extracurricular

Inter IIT Head | *Sports Council, IIT Bhilai*

CoSA 2025–26

Prayatna 7.0 Co-Convenor | *Sports Council, IIT Bhilai*

CoSA 2024–25

Inter IIT Meet | *Annual inter-IIT sports and talent showcase*

- Represented IIT Bhilai Volleyball team at the 57th Inter IIT Sports Meet at IIT Kanpur.
- Represented IIT Bhilai Volleyball & Athletics team at the 58th Inter IIT Sports Meet at IIT Hyderabad.
